Our Campus

60+ Classrooms 110+ Studios & Labs 210 Acres of Campus Space

880,000+ Square Feet of Real-World Media Production Facilities

Full Sail Online

Full Sail’s online programs are driven by a proprietary web-based platform that expands our unique approach to education to students across the globe.

A Human Approach
One of the foundations of the Full Sail approach is to keep students connected to people, so they may experience one-click access to instructors, exclusive guest lectures, and intuitive, collaborative tools that enable all to meet, share, and receive feedback from their fellow students.

Innovative Curriculum
From video, animation, and podcasts, to more traditional lectures and essay assignments, Full Sail has developed extensive original and engaging content that allows us to challenge and inspire the students we serve.

Project LaunchBox™
Through a relationship with Apple, all Full Sail online students, as well as campus students, acquire an Apple MacBook Pro notebook computer loaded with powerful software, all at a deep institutional discount. The Mac is integrated into their curriculum, allowing students to utilize the power of Apple technology to create music, film, games, animation, design, and more.
Full Sail Graduate Highlights

Full Sail graduates have worked behind-the-scenes for many of the world’s most well-known corporations and widely acclaimed entertainment industry releases. Below is just a sample of companies and project titles our graduates have proudly served:
